36. Justus Smith	Regina	justus.smith@gmail.com	Yes		My special needs child received a service dog from SDWR, but has not received all the follow up training that was promised. I feel so badly for the other families who fundraised and did not receive any animal at all. I personally feel shame from asking friends, family and co-workers to donate money to go to SDWR after learning about how they operated and how negligent they were with those funds. Any proceeds of the sale should go to the victims of SDWR's fraudulent operations.	2021-05-22

65. Cathie Smeedy Ramsey		cathie24@optonline.net	Yes		I donated in excess of \$2000 in support of my daughter and her family in securing a trained service dog for my two (2) grandsons diagnosed with Autism. To offer part of the proceeds from the sale of assets to the individual responsible for families either not receiving fully funded dogs or providing dogs not fully trained with no previously guaranteed health certification is unconscionable. The families affected by the SDWR bankruptcy filing are not only suffering a financial cost, there is a huge emotional cost to families, especially with children, who now must explain to them why, after years of fundraising and anticipation, do not have a dog and no chance of receiving one in the near future. I object to the approval of the proposed settlement and respectfully as the Court to reject it. Thank you. Cathie Smeedy	2021-05-23

					come with a guarantee of ongoing lifetime professional dog training. This dog was to support and protect our son from eloping, to provide him comfort when he got upset and to be an unconditional buddy to him even during a crisis. We have over 100 donors who have contributed to our campaign. They gave money to support our son, not anyone in the Warren Family. If there is any money obtained from the sale(s) of Dan Warren's property(s), that money should go to my family and all the other families, who did not receive the service, which we were promised. Dan Warren is a grown man. He, nor anyone in his family, namely, his mother should not receive the proceeds of the sale(s) of their possessions. Essentially, the Warren Family stole "our" money to payoff their \$650,000 house and farm in less than 8 years. When their property gets sold, that money that should go back the donors and/or contributors, so that those people can make a decision as to what they want to do with the money, which was to support the life of a struggling child, not a grown man who made a big mistake.

They crushed dreams of independence, pulled away the promised supports, damaged already struggling families, created doubt and skepticism for charitable donors, all for the purpose of their own self interest. 234. Charles Barry	Silver Spring, MD	charles_barry@alumni.brown.edu	Yes		My girlfriend was a puppy raiser. We spent 18 months caring for a dog with little to no contact from SDWR. They had 3 total training sessions held in that span, of which we could make 1. The dog was pronounced unsuitable for service dog behavior by our veterinarian. Fast forward to the end, SDWR said they needed the dog back within the week. We wanted to fight legally but knew it was not a fight we could win. After giving the dog back, we identified the family who she was placed with, and learned they had gotten the dog less than 2 weeks after the dog was taken from us. No formal training was given, and the family has spoken to us saying that the dog is no better than a household pet. They spent \$25,000 on a household pet, and SDWR has done near nothing to help rectify the issues they were facing. This dog was scared of EVERYTHING, and continues to be so as we have heard from them.	2021-05-24

268. Laura Marquez	Coventry	whitneyanna@yahoo.com	Yes	8607427054	We worked hard to raise \$25K and we had so many who gifted to our daughter towards an autism service dog....then the monies earned over and above were put into a "Hope Chest" fund for the next service dog once the first (untrained autism service dog) retired. That \$\$ is long gone with nothing to show for it. We received a good pet but not an autism service dog by any means. Highly disappointed to think that he, his spouse or mother would receive ANY portion of any settlement. Unjust if they do.. People with disabilities have a hard enough time getting through life. What was supposed to be helpful has been SO harmful.	2021-05-25

294. Elizabeth Thomas	Clayton	inhisgrip77@yahoo.com	Yes		I received an untrained dog after paying and raising thousands of dollars! Our friends, family, church, and community all contributed to a supposed non profit to help us get a life saving service dog for our son. All we have is an untrained dog. It is clear that Mr. Warren's mother Marianne Warren was actively involved in this scam and should absolutely NOT receive any money from this! I simply cannot understand why she has not been investigated for her obvious involvement in this elaborate scam. The monies should ethically be returned to the families/donors that worked so hard to raise these thousands of dollars (or paid out of their own pockets) that were stolen from us to support their lavish lifestyle. I absolutely object to the Marianne Settlement Motion. It is absolutely ridiculous to even consider giving her money that rightfully belongs to the families of kids who desperately needed and were promised life-saving service dogs. Please do what is right and remove the Marianne Settlement Motion and give that designated amount back to the families who rightly deserve those monies.	2021-05-26
